Thirty Cents An Hour and Fifty Cents An Hour Overtime Seems To Be Assured

DERAILMENT OF TRAIN ONLY PHASE OF STRIKE

Governor Announces That He Was Ready To Cope With Any **Exigency That Arose**

Negotiations continue between Ho-olulu and San Francisco shipping of-ces as to the new scale which will be paid Honolulu stevedores. A meeting of shipping men was held yesterday morning. At its conclusion it was stated that nothing definite was ex

eted yesterday.

It is assured, it was stated that there
ill be an increase. The delays in
ring it were explained as due to the
fficulty of arranging the scale by
soled messages, since naturally there
is a great deal of explanation neces-

is a great deal of explanation necessury.

What the new scale will be or probably will be cannot be learned with
any greater accuracy than Tuesday,
when it appeared that thirty cents an
hour and fifty cents an hour pvertime
was approximately what the Honolula
men had in mind.

When the scale has been fixed it
probably will go into effect immediate
by, as had been believed generally, and
will be paid those men who are working, regardless of their past or present
status as union men. There will not be
sufficient cognisance taken of the strike
and of the union as to demand that the
return to work before the increase is
granted. If the union men choose to
return to work they will be paid the
new scale.

Union Is Not Recognized

The increases are not being granted because of the pressure of the union, but because they are "just." "We probably would have raised a great more promptly if the men had put it up to use without striking," it was stated.

Whatever of interest remained in the strike yesteriday contered upon the action of the shipping men, for the strikers had boned down greatly after the rioting of Wednesday, and there searcely was a stir on the waterfront. Mayor Lane said that all was reported to him as quiet and that he had conferred with Sheriff Rose, who said that he was able to handle the situation. In view of this, no action would be taken to request from himself as from if the city government.

As to the derailment of the Oahu frain Wednesday, the mayor said. He expressed his belief that the Governor would not call out the antional guard, the mayor said. He expressed his belief that the Governor would not call out the guard without a request from himself as from his commanding officer. In a said that he had one of the papers, relative to calling out the national guard to handle the strike aituation. I felt for the first time that

"After reading an editorial in one of the papers, relative to calling out the national grand to handle the strike situation. I felt for the first time that it would be proper for me to take steps to handle the matter," he said "I called upon the attorney-general for advice and after a consultation with him it became evident that the governor has ample civil power to maintain order in such conditions and in case it should be found necessary.

Prepared For Action

"I therefore took immediate steps to be in a position to act without delay and put m force measures to control any and all attempts at lawlessness.

I was aware that the wage question is the real crux of the whole difficulty and that, as soon as the shippers had decided upon n wage scale, if the scale should prove reasonable, it was an questionable that normal conditions would be testored.

"I therefore, through an influential finir person, and one who had heen identified with the shipping into-exts and the stevedores, sent word to the longshoremen, advising time to remain any the selection of the remain way from the waterfront and keep the peace no matter where they might be. This I told them, would give the shippers a chance to decide upon the wage scale it them, would give the shippers a chance to decide upon the wage scale it they are willing to pay for longshore work."

Work on the Matson steamer Manos, the only vessel of congenismes 'n wort went forward steadily. There were few pickets about and the few did little. As large numbers of men were seasing ble for the Manoa, few men were seasing, so that the states would have had little opportunity to emise pilikia even if they had decired.

More men will be needed today for the Onakia Shosen Kaisha steomer limits of the scale of the police our year that the state of the scale of the police our year they might be. This research is so that the strike and the few did little. As large mumbers of men were seasing ble for the Manoa, few men were seasing the form Seattle, dated September 25:

Breekons little

intile opportunity to enuse pilith even if they had desired.

More men will be needed today for the Oaska Shore Kaisha stomme Imite Dank of Saru, which will arrive from Yoke huma with eargo for Honolala. Shipping men say that they have enough abor sait, barriag rioting, the Insho a expeteed to discharge smoothly. Union Men Greatly Depressed

Public reproduction of the rioting of Tuesday and Wednesday and the suse cost of the shipping companies in works ing their vessels have depressed that in the strike in that San Francisco union sieved of wealth in the said the suse of vessels listed here as "unfair." The Oceanic steamer Sierra and Matson steamer Lurline arrived at San Francisco would aid the Moncially union to that degree.

With this prop gone, it is believed that they are being worked as usual in ever had been believed by shipping men that San Francisco would aid the Honolally union to that degree.
